THE CRAWFORD PLAN.

A Fair Way to Conduct the Primaries.

The APPEAL suggests to the candidates who enter the field under the Crawford plan, that they all meet together next week and decide just how the affair will be managed. Reno. Ail candidates who have publicly announced themselves should have a right to attend the meeting and have a vote on all questions arising

as the candidates alone are interested in the method of conducting the primary, and as the County Convention will have but little to do trains." except to ratify the result of the primary, it would seem a good idee for the candidates to also select the delegates to the Convention.

Four years ago, when the Crawford plan was adopted its fairness was almost wholly neutralized by separate tickets being in the field in the interests of different combi- Mrs. Langtry's mine, four bits a

The idea of the Crawford plan is to leave the voter absolutely free in his choice, and not be compelled to vote for a certain man simply because he belongs to the "combine." If all the names are printed on one ticket and but one ticket is printed, the voter carefully scans the list and simply scratches the candidates he wishes to vote against. The candidates whose names are scratched the least number of times are the nominees of the party.

Some of the candidates, however, go-as-you-please contest, where combinations can be made, etc.

The APPEAL would suggest that the oundidates meet some day next week, talk the matter over in a friendly way and decide what they shall do.

The gentlemen who are candidates are all fair men who would abide by any verbal agreement they might make under those circumstances, and men also who would keep party harmony in view.

For Fair Weck.

The Laura Hollison Tragedy Company has secured the Carson Theater for Fair week, and will produce the following plays: "Ingomar," "Geneva Cross," "Hunchback," "The Time and the Hour," and "Othello." Miss Hollison is said to be one of the handsomest weman in America.

J. D. Forrey son.

After serving several successful terms as District Attorney Torreyson is again a candidate. He has given such satisfaction during his official connection with the District Attorney's office that no one cares to contest the nomination with him. He is a man of ability and experience and always makes a good run.

Today's Ficnic.

The Miners' picnic takes place today at Treadway's. The miners toil seven days in the week, and with some today will be their first buting for the year. Few men in Carson will begrudge the dollar they contribute to the Miners' Union of Storey today.

A Move in the Right Direction. Professor W. M. Miller, of the State University, has been on a trip through Northern Nevada undertaken for the purpose of making investigation in regard to the value of indigenous forage plants. These are very numerous and are already known to be very valuable, even

as found in this wild state. Prof. Miller has been examining the various plants and grasses with a view, says the Virginia Enterprise, of experimenting upon their cultivation at the University agricultural ground. This is a movement in the right direction. At the Agricural try what can be done with the indigenous perennial flax, tobacco, poppy, potato and simdar plants.
